Contact available on request

Hyderabad, India

Senior Product Designer and UX Architect with **15+ years of design experience, including 8+ years in B2B SaaS**. Experienced in UX strategy, enterprise dashboards, design systems, research-led product improvement, secure UX, and frontend-aware design handoff.

I design scalable product experiences by combining user research, system thinking, dashboard usability, accessibility, product analytics, and design-system governance. Strong focus on reducing complexity, improving decision clarity, and aligning design with product, engineering, and business goals.

Target roles: Senior Product Designer · Senior UX Designer · UX Architect · Lead Product Designer · Design System Lead

• KEY SYSTEMS & FRAMEWORKS

ENCULTURE DESIGN SYSTEM

Created and maintained an end-to-end design system covering tokens, typography, spacing, color, components, dashboard patterns, interaction states, accessibility rules, and frontend-ready design guidance.

ENCULTURE UX PHILOSOPHY

Created a product-specific UX philosophy focused on clarity, guided interaction, trusted evidence, and actionable outcomes. Used it to evaluate screens, improve respondent flows, and guide dashboard experience decisions.

EVIDENCE-DRIVEN UX FRAMEWORK

Combined Google Analytics, Microsoft Clarity, client interviews, stakeholder feedback, and usability observations to identify friction, understand behavior, and recommend product improvements.

SECURITY-AWARE UX

Applied privacy-first UX, least-privilege thinking, role-based access awareness, and secure interaction design across sensitive workflows. Also completed responsible vulnerability disclosure involving client-side PII exposure.

• SKILLS

CORE SKILLS

Product Design, UX Strategy, UX Research, Enterprise UX, SaaS Dashboard UX, Design Systems, Design Tokens, Data Visualization, Information Architecture, Usability Audits, Accessibility, Secure UX, Stakeholder Alignment, Design-to-Development Handoff, AI-Assisted UX Workflows

TOOLS & TECH

Figma, FigJam, Tokens Studio, Google Analytics, Microsoft Clarity, React, TypeScript, Tailwind CSS, Cursor, GitHub, Vercel, Cloudflare, OpenAI / LLM Workflows

• CAREER EXPERIENCE

● Senior UX Designer / Senior Product Designer · Enculture, NHR Technologies

Jan 2024 - Present

B2B SAAS · CULTURE ANALYTICS

🏆 Hackathon Winner 2025

- Lead UX across culture analytics modules including program creation, respondent flows, dashboards, action planning, and role-based reporting.
- Created a product-specific UX philosophy to guide clarity, trust, interpretation, and action across the platform.
- Built and maintained a scalable design system with tokens, typography, spacing, components, interaction states, and accessibility rules.
- Designed dashboard experiences that help HR leaders understand participation, survey outcomes, trends, comparisons, and action areas.
- Used product signals — Google Analytics, Microsoft Clarity, client interviews, usability reviews, and stakeholder feedback — to identify friction, understand behavior, and recommend evidence-led design improvements.
- Reduced UI inconsistency across enterprise modules through reusable patterns, token-based decisions, and design-system governance.
- Worked with product, engineering, data, and leadership teams to convert ambiguous requirements into structured UX flows.
- Applied security-aware UX principles across sensitive workflows, including privacy, role-based access, and data exposure prevention.

- › Supported AI-assisted design and frontend-ready prototyping where useful for faster iteration and engineering alignment.

○ **Product Designer** · Clinic Mantra

Jan 2023 - Aug 2023

HEALTHCARE TECH

- › Redesigned multi-clinic appointment scheduling across web dashboards and mobile flows.
- › Reduced booking flow complexity from 8 steps to 4.
- › Improved task completion across patient and admin roles.
- › Applied secure UX patterns for sensitive healthcare workflows.

○ **UX Design Consultant** · Estate96

Aug 2022 - Nov 2022

SMART ACCESS SOLUTIONS

- › Designed UX architecture for mobile, tablet, and wall-panel access control experiences.
- › Created flows for resident and admin roles.
- › Delivered end-to-end design and prototype within an 8-week engagement.
- › Aligned interface behavior with hardware access logic and development needs.

○ **UX Designer** · Opia Labs

Nov 2019 - Jul 2022

SAAS PLATFORMS

- › Led product design for Inwards, an emotion analytics SaaS platform for B2B customer insights.
- › Structured emotional data into role-specific dashboards and insight views.
- › Improved design handoff across multiple SaaS products through reusable component frameworks.
- › Supported faster iteration through standardized UX patterns.

○ **UI / UX Designer** · Foyr

Apr 2017 - Nov 2019

IMMERSIVE ARCHITECTURE TECH

- › Standardized UX architecture across interconnected 3D visualization products.
- › Built reusable UI components for multi-product design consistency.
- › Improved onboarding for new designers through clearer design patterns and component reuse.
- › Received the MAXIMUS Award in 2018 for cross-product UX contribution.

○ **Graphic Designer & Design Trainer** · Multiple Ventures

2010 - 2017

- › Built strong foundations in visual hierarchy, typography, layout, and brand communication.
- › Trained aspiring designers and developed strong communication and mentoring skills.
- › Transitioned from visual design into digital product and UX design.

• **EDUCATION**

- › **Advanced Certificate Program in Cyber Security** — IIT Guwahati x Edureka · 2023–2024
- › **Design for Augmented & Virtual Reality** — Interaction Design Foundation · 2019
- › **Foundation Course for UX Designers** — Interaction Design Foundation · 2018
- › **Diploma in Game Art & Design** — AAG · 2009–2011
- › **Bachelor of Commerce** — Osmania University · 2006–2009

• **AWARDS & RECOGNITION**

- › 🏆 **Hackathon Winner 2025** · Enculture, NHR Technologies — recognized for Action Engine, a product concept supporting prescriptive retention interventions.
- › 🏆 **MAXIMUS Award 2018** · Foyr — recognized for cross-product UX standardization and delivery impact.
